FORTUNES MADE BY CROPS OF VOLUNTEER KANSAS WHEAT

Topeka, Kan., Aug. 24.—Stories of sudden wealth in the Kansas wheat belt are numerous this year, due to the unusual acreage of "volunteer" wheat, a crop grown from seeds which fall in the previous harvesting.

Officially estimated there was 1,500,000 acres of volunteer wheat in Kansas this year, or about a sixth of the total harvested acreage. This wheat yielded probably 40,000,000 bushels or representing a monetary value of about \$100,000,000. The total Kansas crop of wheat is estimated officially at 180,000,000 bushels.

The large acreage of volunteer wheat is due to the fact that a great deal of this acreage was deserted as wheat land by the owners, after last year's crop to bountiful crop had been harvested.
